MDEP: **Title:** **POC:**

Description:

These fields fill automatically with data extracted from Probe and cannot be edited.

Chart generated from data in table at bottom of report.

Field fills automatically with name of MDEP POC assigned by PEG Administrator.

Guidance:

- This field automatically enters the APGM priority and task number identifying the goal, objective, subobjective, and task.
- The analyst may either type in related guidance or cut and paste from the MS Office Suite of tools.

Analysis:

- Authorized MDEP POCs and PEG Administrators edit this field to provide an ad hoc analysis.
- The field allows cut and paste from other software applications supported by Windows.
